Office Note.

Letter No. 1589 dated 15. July 1912
from the President Municipal Commission,
Colombo Station /Hampshire.

SUBJECT.

Veterinary Hospital in the Colombo Station
/Hampshire

There appears to be no objection
to the opening of a veterinary hospital
in the Colombo Station by the Municipality,
but it is not clear why it is proposed
that the Municipality should take over the
~~work~~ plant & work of the S.P.C.A.

2. In regard the S.P.C.A, please
see a note left by Mr. Hampshire with re-
gard which has recorded thereon
"I am doubtful whether there is sufficient
legitimate work in the Colombo to
justify the continuance of the S.P.C.A
in the present line". Probably the Society
is not working well from lack of funds. If
it be so its work can cease. There seems
to be no need for Municipality to take up the philanthropic
work & employing agents to prosecute
persons

H.q.s. Dec 90
A '90

[illegible] work be undertaken [illegible] by the Municipality, the recurring expenditure of the proposed veterinary hospital will be reduced by Rs 85/- a month, i.e. to Rs 120/- per annum.

3. It is submitted that, in a large town like the C & M Station, every endeavour should be made to run a S.P.C.A. The Municipality contributes a sum of Rs 25/- a month for the purpose, & may not object to raising their contribution if asked to do so. If the Municipality is giving an annual donation of Rs 50/- they fines inflicted at the instance of the Agents of the Society is made over by Govt to the Society. It should be possible with an energetic Secretary to raise a tolerably good income from private monthly subscriptions.

4. When the Veterinary hospital is opened, it will have to be appointed an inspectress for the treatment & care of animals under Sec: 6 (2) of the Prevention of Cruelty to Animals Act, XI of 1890 which is in force in the C & M Station. The District may [illegible] with the needful steps in the matter.

7. It appears from Mr Pickman's letter that subscribers to the S.P.C.A have agreed to transfer their work & funds to the Municipality. If it be considered desirable that the work shd be taken over by the Municipality there appears to be no objection to the work & the Municipal Commissioners & the funds of the Society, & the opening & maintenance of the proposed Veterinary hospital by the Municipality. In this case, half of the price now paid to the S.P.C.A will not be made over to the Municipality unless such transfer is sanctioned by the Govt of India. Vide the Municipality's annual donation of Rs 500/- will also presumably cease.

of the S.P.C.A. was among the questions of fines being received by their Agents & half being credited to the Society must necessarily disappear. The Municipal take their place & if that is so we must presumably ask Govt. to sanction the payment of these sums to them. I assume that the whole half is credited to Govt.

Is it quite clear that the S.P.C.A. has limited its activities to the Cook Islands. The question of H.H.'s donation seems to depend on a certain extent on whether the Society have done a profitable trade by means of Mysore.

MBW
24/7

9. In the report of the S.P.C.A. for 1905 it is stated that the Society was formed for both the City & Cantonment but that its work is limited to Cantonment limits. In Col. Hemfield's note of 6th August 1910, it is observed that the Society's work is limited to the ~~State~~ Municipal limits & that the cases against owners residing in the City & elsewhere are heard together & are very protracted.

Letter No. 1072, dated the 8th/10th Sept 1921 from the President, Municipal Commr.

SUBJECT.

A permanent veterinary hospital for the C&M. Station of Bangalore.

19

+6
203-1912.

In October 1912, the Resident's sanction was given for the establishment of a veterinary hospital from 1st Nov 1912 at a given expenditure of Rs 205 a month and for the Municipal Commr taking over the work of the S.P.C.A in Bangalore.

It appears that the Mun! Commr. did not open a hospital till the 1st July 1919. Please see Rs. 15 and 16 of F. 203/1912.

Rs. 18 & 20 of F. 203/1912 and N. Taskeed note in F. 90/1890 under S. 129 of Act

The hospital has been temporarily extended from time to time and is still in existence.

It is now proposed to set up a permanent veterinary hospital.

The President says that there is permanent need for an infirmary to which animals may be remanded under Section 6 of the Prevention of Cruelty to Animals Act, 1890. Vide Resident's Notn No. 27, dated the 21st April 1921.

S. 129 / 90-1890

The Commr abolished their Dept. for the Prevention of Cruelty to Animals from the 1st October 1919 and said that they would maintain an efficient veterinary hospital as their share of work for the purpose.

Rs. 124/a 125 / 90-1890

In para 10 of the D. no., it is stated that a sum of Rs 25,000 will be required for the purchase of a site for the Hospital.

A sum of Rs 15,000 has been provided in the Municipal Budget of 1921-22.

Rs 12,13 & 40 municipal Budget

The President requests that a promise of Rs. 12,500 may be given by the Resident to keep the cost of the site.

He also wants the Resident to consider whether

S. I.—E. P. B.—6-1920.—10,000.

whether a full grant for the construction of buildings cannot be made to be spent in the years 1922-23 and 1923-24. It is estimated that for Rs 20,000 sufficient accommodation could be provided at the main hospital for some time to come.

As stated in para 7 of the G.O., the President has forwarded Madras G.O. to show that the practice of the Madras Govt. is to meet the whole of the initial cost and half the recurring cost of veterinary dispensaries and hospitals.

He also refers to paras 156 to 163 of the Report of the Madras Financial Committee.

In para 159, the majority of the Committee recommend that the Govt. should bear 3/4 ths of the ordinary charges and that the cost of constructing and improving buildings shd. be a provincial charge.

Submitted for orders as to whether the Govt. of India may be addressed for a grant.

CPB. 19/9/21

(Proposals for inclusion of new items of expenditure in the budget have to be submitted to the Govt. of India by the 15th October).

Mr. Jones left

Margin for binding not to be written on.

The site will cost Rs 25000/ and building Rs 20000/ or Rs 45000/. The Municipality have a sum of Rs 15000/ in their current years budget. The question is whether a Govt. grant should be made and if so of what amount. In Madras hitherto the whole of initial cost is met from Govt. funds. Whether this practice applies also to Madras Town in

Notes-*continued*

Margin for binding, not to be written on.

Bangalore is almost peculiar to Madras Town. In the mufassal a veterinary hospital is practically an agricultural institution insofar as it attends mostly to the wants of agricultural cattle. ~~If a~~ For making a grant from Govt the sanction of the Govt of India is required but for this an application should reach the G of I by the 15th October.

1919

29

Resident

Please see L.V.C.'s enclosures and the foregoing notes from para 1. These papers cover the whole ground & not much remains to be said.

If it be conceded that a case has been established for the construction and maintenance of a Municipal Veterinary Hospital we might perhaps go up to G of India ab ovo with the suggestion that funds be provided by Govt as suggested by the Pres. in L.V.C. in the budget for the ensuing year? As then instructed she could the G of I at an early date. We have not time to enquire

Does the financial arrangements
are in Leeds City as opposed to
the Leeds Improvement Act might furnish
the practice in the Cities, & even if
so Qy / to decide whether the
principle can suitably be applied
in the C[ity] Constitution. There seems to be
no good reason why it should not.
The happy problem to be solved is the
cost of acquiring a site (which
apparently is more than Leeds
Improvement Act bodies do) and this fund
should bear the other half of the
whole of the cost of building the
hospital & equipping it - the latter
on analogy of Leeds Improvement
practice. Having and receiving charges,
the Ctee enquires whether Govt would be
prepared to bear a portion of them.
Powers have again to be sought: follow
Leeds Improvement practice and suggest that Govt
bear half the net cost i.e. half of
gross cost less income. This would be
½ of 4530/- - see Enclosure VI. That
Enclosure shows the establishment proposed.
It seems to be on a moderate scale.

Next is decision to address Qy/
as proposed & why of L.U.C. & all its
subdivisions might be dealt with on letter
which, it seems, would be a brief one.

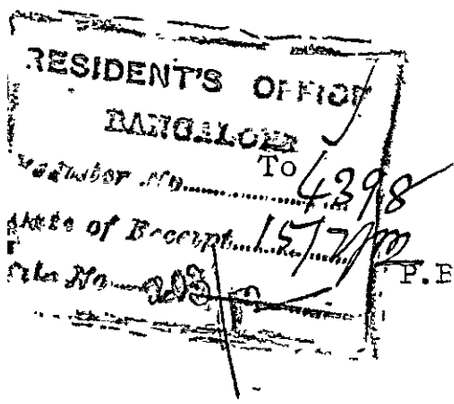
CIVIL AND MILITARY STATION, BANGALORE,
MUNICIPAL OFFICE.
DATED 13th July 1912.

FROM

F. J. RICHARDS, ESQUIRE, M. A., I. C. S.,
President, Municipal Commission,
C. & M. Station, Bangalore.



TO

P.E.WARBURTON Esquire, I.C.S.,
FIRST ASSISTANT to the HON'BLE the RESIDENT
in MYSORE,
Bangalore.

SIR,

127 9-4 07/02 (D)

Adverting to para 2 of this office No.116 dated the 9th April 1912, I have the honor to state that the Sub-Committee appointed to consider the proposal of opening a Mucipal Veterinary Hospital in the station have, in consultation with the Society for the Prevention of Cruelty to Animals, reported that a Municipal Veterinary Hospital is a desideratum for the Civil population, that it should be opened as early as possible, provided it can be equipped by public subscriptions and the funds and work of the Society for the Prevention of Cruelty to Animals taken over by the Municipality.

2. The report was carefully considered by the Standing Committee on the 20th June 1912 and by the Commission on the 27th June 1912, when it was resolved that a Hospital be opened on 1st August 1912 and maintained from Municipal Funds, as more than a moiety of the cost of equipping it has already been received from public subscriptions and the balance expected at an early date.

3. I enclose copies of the proceedings of the Sub-Committee, the Standing Committee and the Resolution of the Commission and request the favor of sanction of the Hon'ble the Resident to the opening of the Hospital on or about the 1st August 1912, as proposed and to a

No.11 dated 7th June 1912.

a gross recurring expenditure of Rs 205/- only per mensem from Municipal Funds for its maintenance.

I have the honor to be,

Sir;

Your most obedient servant,

for President, Municipal Commission,

Civil and Military Station, Bangalor

Proceedings of the Sub-Committee appointed to consider and report on the question of a Veterinary Hospital for the Civil and Military Station in connection with the S.P.C.A.,

---

Present on the 14th June 1911:-

President, and Messrs. Davis, Simpson and B.P.Annasawmy Mudaliar.

The Sub-Committee ascertained that the S.P.C.A. has at its credit a cash balance of ₹2016/- inclusive of a sum of ₹1500/- as a Fixed Deposit in the Madras Bank and a further sum of ₹225/- invested in the Madras Bank saving Bank.

(2) the Estimated receipts from fines amount to ₹20/- per mensem and the Municipal grant to ₹25/- per mensem.

(3) the Agent working for the Society is paid ₹55/- and the Asst. Agent ₹30/- per mensem.

The Sub-Committee estimate the initial Expenditure for equipping the Veterinary Hospital at ₹1,000/- and the recurring Expenditure as follows:-

For a Compounder.....	₹20/-	
,, Salustri.....	₹25/-	
,, 2 servants.....	₹15/-	60/-
Medicines and contingencies.....		60/-
		₹120/- per mensem
Add pay of agents.....		85/- per mensem
		Total.205/-per mensem
		or ...₹2,460/--do-annum.

Against which we have the Municipal grant of.....300/-
leaving a balance of ₹2160/-to be provided for.

Resolution--The Sub-Committee recommend that, provided the Veterinary Hospital is equipped by public subscription the Commission take over the work, and funds at credit of the Society that the Agent and Sub-Agent be retained on their present salaries; that the sum of ₹1,725/- already invested be allowed to remain in Fixed Deposit.

Proceedings of an Ordinary Meeting dated 27th June 1912.

---

11. Proceedings of the Sub-Committee appointed to report on proposals for a Veterinary Hospital; the Standing Committee recommend that the proposals be accepted and that the Hospital be opened on the 1st August 1912.

Resolved that, as recommended by the Sub-Committee and the Standing Committee,

(1) A Municipal Veterinary Hospital be opened on 1st August 1912.

(2) That the Commission take over the Society for the Prevention of the Cruelty to Animals and Funds at their (S.P.C.A's) credit.

(3) That the Agent and Sub-Agent of the Society be retained on their present salaries of Rs55/- and Rs30/- respectively.

(4) That the sum of Rs1,500/- invested by the Society in fixed deposit and Rs225/- in Madras Bank Savings Bank be transferred to the Commission and allowed to remain in fixed Deposit.

(5) That the Municipal monthly grant of Rs25/- now paid to the Society for the Prevention to the Cruelty to Animals be discontinued from 1st August 1912.

(6) That the initial cost of equipping the Hospital estimated at Rs1000/- be met from public subscriptions promised and partly received already.

(7) That the following recurring annual expenditure be sanctioned from 1st August 1912 and provided for in the Municipal Budget:-

Establishment		Per mensem.	Per annum.
Compounder	1	Rs20/-	Rs240/-
Salustri	1	25/-	300/-
Servants.	2	15/-	~~180~~/-
Agent	1	55/-	660/-
Sub-Agent.	1	30/-	360/-
			Total .1740/-
Medicines & Contingencies		60/-	720/-
			Total Rs2460/-

and (8) That the amount required for the current year be met by re-appropriation of funds.

President announced to the Commission that a sum of Rs500/- was received from Hydan Ramchand Sait through Mr.C.N.Suryanarayana Rau and another sum Rs100/- from M.Abdul Hafeez Saib, the present Slaughter House Contractor, towards the initial expenditure for equpping the Veterinary Hospital and hoped that the balance required will soon be forth-coming. He proposed a vote of thanks to Hydan Ramchand Sait and Slaughter House Contractor for their contributions, which was unanimously carried.

D.O. [DRAFT.]

From P B Chambers

To F. J. Richards

Dear Mr Richards,

Please refer to your letter L 2889 dated the 13th July 1912 ~~on the subject of the S.P.C.A. work~~ in which it is suggested that the Municipal Commission should take over the funds & the work of the S.P.C.A.

I can find nothing definite regarding the Constitution of the Society but it appears to me that the first steps in the matter should be taken by that Society. Presumably the Managing Committee are the trustees of the assets of the Society & they should take the necessary steps towards dissolution.

The Municipal Commission can hardly frame a resolution to that effect.

I was under the impression that you called a meeting of the S.P.C.A. a short time ago. Were any regular steps taken? Until the Society takes definite action in the matter I doubt if we can take a move.

It is not clear in what name the money deposited

(Continuation of Draft).

in the Bank Stands, & I by such draft if the Agent would agree to transfer it to the credit of the Commission without full authority

20 July 1912.

My dear Warburton

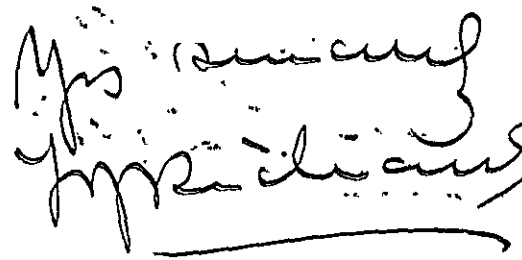
S. 2 Your letter No.4091 of 18th July 1912.

A public meeting of subscribers of the Society for the Prevention of Cruelty to Animals was held on the 14th June 1912 when it was decided

(1) "that the Municipal Commission be asked to take over the work of the Society together with its funds".

(2) "that, provided the answer of the the Municipal Commission to the proposition is in the affirmative

affirmative; the Secretary is authorised to hand over the work of the Society and its funds to the Municipal Commission".



.B.WARBURTON Esquire, I.C.S.,

First Assistant to the Hon'ble the Resident in Mysore.

BANGALORE C & M STATION MUNICIPALITY

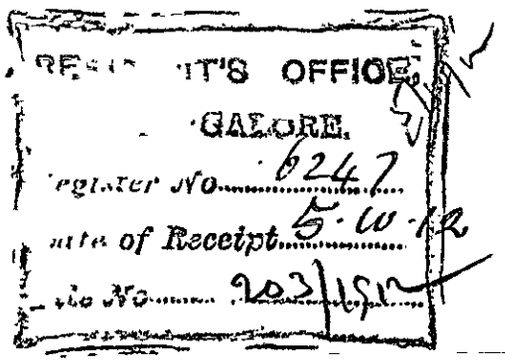
4 October 1912.

My dear Warburton,

I regret not having answered your letter of 24th July 1912 regarding the Veterinary Hospital. I did not realise that an answer was expected.

I expect you are right regarding the necessity for Government of India's sanction for handing over half the fines to the Municipality. All I can find on the subject is letter 37 J dated 2nd May 1878 from Government of India in the Foreign Department to the Chief Commissioner of Mysore. It

824 A
+ 90/1890
P



It refers to the Bengal Act 1 of 1869, Surely the Government of India would not hesitate to grant us this privilege even with retrospective effect, if we took over from 1st November.

I think our Bangalore Municipal Law Section 69(2)C allows us to take over the work of the Society for the Prevention of Cruelty to Animals.

As for His Highnesss prize, I understand from Mr.R.W.Simpson Honorary Secretary of Society for the Prevention of Cruelty to Animals, that, it is applied for annually, the Secretary of the Society for the Prevention of Cruelty to Animals writing to the Private Secretary to His Highness. In any case I think we might ask His Highness to grant us Rs 50/- for our Annual Market Show to be spent as follows:-

Prizes for two best Dairy Cows.

1st Prize	Rs 15/-
2nd ,,	,, 10/-

Prizes for the two best Jutka ponies.

1st Prize	Rs 15/-
2nd ,,	,, 10/-

Yours sincerely
J Richards

C No. 107

From

The Hon'ble Lt. Col. Sir Hugh Daly, K.C.I.E., C.S.I.,

Resident in Mysore.

To

The Secretary to the Government of India,

Foreign Department.

Dated 15th October 1912.

Sir,

I have the honour to invite a reference to your letter No. 37 J, dated the 2nd May 1878, to the address of the Chief Commissioner of Mysore, in which sanction was accorded to the proposal that one half of all fines realized from persons convicted under the provisions of the Act for the Prevention of Cruelty to Animals and at the instance of the Humane Society might be credited to the Funds of that Society.

2. A public meeting of subscribers to the local society for the Prevention of Cruelty to animals was held on the 14th June 1912, when it was decided

(1) that the Municipal Commission be asked to take over the work of the Society, together with its funds,

(2) that, provided the answer of the Municipal Commission to the proposition is in the affirmative, the Secretary is authorised to hand over the work of the Society and its funds to the Municipal Commission.

The Municipal Commission have, in framing a proposal to open a veterinary Hospital in the Station, resolved to take over the work of the Society for the Prevention of Cruelty to Animals with its funds (Rs. 1725) and to retain the agent and sub-agent of the Society at the present cost of Rs. 85 per mensem, so that the work of the society may be continued on the same lines.

3. I have sanctioned the introduction of the above arrangements with effect from the 1st November next and would request the sanction of the Government of India to credit the funds of the Municipal Commission from that date with one half of the fines realized from persons convicted under the act for the Prevention of Cruelty

to animals.

in Mysore, Bangalore.

Sir,

In forwarding herewith a copy of letter No.879 dated the 30th June 1919 from the President, Municipal-Commission, Civil and Military Station, Bangalore, I have the honour to request that you will be so good as to obtain the sanction of the Hon'ble the Resident in Mysore to the appointment of this temporary Municipal Veterinary Hospital as an infirmary for the purposes of Sec. 6 (2) of Act XI of 1890. For want of such an infirmary in the past the Act has been deprived of much of its utility.

The hospital will be in the immediate charge of the Municipal Veterinary Inspector who has the qualifications of a diploma holder in Veterinary Science in Bombay College.

The charges for treatment and diet have not yet been finally approved by me but they will not exceed estimated average costs.

I have the honour to be,
Sir,
Your most obedient servant,

for District Magistrate.

Sir,

I have the honor to invite attention to the Residency letter No.5992 dated the 12th October 1912 sanctioning the entertainment of an establishment for a Municipal Veterinary Hospital at a gross expenditure of Rs.205/- p.m. and to state that the Municipal Commission in their resolution No.332 dated the 28th June 1919 (Copy enclosed) have sanctioned the establishment of the hospital and the entertainment of a staff and charges as noted in the margin at a cost of Rs.297/-* p.m. as a temporary measure, for a period of three months, with effect from the 1st July 1919. I request that the Hon'ble the Resident may be pleased to confirm the resolution. The rates are based on those prevailing in the Military Veterinary Hospital.

*Allowance to Veterinary Inspector in charge	Rs.30/-	*
1 Compounder	15/-	*
1 Salestri	15/-	*
1 Syce	13/-	*
1 Dresser	13/-	*
1 Sweeper	8/-	*
Cost of medicines &c., ..	50/-	*
Feeding charges @ Rs.5/- per diem	150/-	*
Total ..	Rs.297/-	*

2942

Encl.1.

2. The expenditure can be met from the allotment of Rs.2,312/- provided under Grant III (e) in the sanctioned estimates for 1919-1920.

3. Rao Sahib B.V. Venkatasami Naidu has kindly placed his buildings to the South of Puckle's gunta free of rent at the disposal of the Commission for the location of the hospital during the above period.

4. The Health Officer reports that 125 animals were treated at the hospital as out patients and 115 cured and discharged between the 1st and 23rd July 1919 and this fact has been recorded as a satisfactory beginning in the Commission's resolution No.1 dated the 24th July 1919, a copy of which is enclosed for your information.

5. The favor of an early reply is requested.

------:.*%*.:------

Proceedings of an Ordinary Meeting of the Municipal Com--mission, for the Civil and Military Station of Bangalore, held at the Mayo Hall, at 8-15 a.m. on Saturday the 28th June 1919.

---◊---

332.- Proposition by the President to rent the building of Rao Sahib B.V. Venkatasawmi Naidu, south of Puckle's -- gunta temporarily for the opening of a veterinary hospital and the employment of an establishment for the same; the Standing Committee recommend the proposal as a temporary - measure for three months.

President said that, as the military authorities would probably not require the building which they had been using as an additional veterinary hospital till October, it was a good opportunity to commence work on a modest scale so that experience could be gained before a new building was constructed. He said that the public must not expect a full-blown hospital immediately, the main object being to provide a place to which animals concerned in S.P.C.A., cases could be remanded. He said the staff sanctioned in the budget was altogether inadequate. Mr. Abdul Latheef wanted a highly qualified man at once. Mr. Hall considered that the immediate needs of ill-used animals would be met.

RESOLUTION.- The recommendation of the Standing Committee accepted.

The First Assistant to the Honourable
the Resident in Mysore,
Bangalore.

SIR,

I have the honor to forward herewith copy of a resolution No. 389 dated the 30th September 1919 of the Municipal Commission for the Civil and Military Station of Bangalore re the continuance of the veterinary hospital (sanctioned in the Residency communication No. 6440 dated the 21st August 1919) for a further period of six months from the 1st October 1919 etc., and to request that the Honourable the Resident may be pleased to confirm the resolution.

2. With regard to the charges for the up-keep of the hospital, I would add that the expenditure of Rs. 297/- per mensem as already sanctioned will remain stationary with the addition of a monthly charge of Rs. 60 on account rental of the building payable to the owner Rao Sahib B. V. Venkatasawmy Naidu garu, as no rental was charged during the past three months.

3. Sanction of the Hon'ble the Resident is solicited to debit the charge to the allotment under "Grant III(e)" as originally proposed.

I have the honor to be,
Sir,
Your most obedient servant,

for President 17.10.19

Abstract of proceedings of an ordinary or special meeting of the Municipal Commission for the Civil and Military Station of Bangalore held at the Mayo Hall at 8-15 a. m. on. Tuesday *the* 30th Septr. *191*9.

---

389. Health Officer's note No. 1437 dated the 21st August 1919 re the location etc., of the veterinary hospital sanctioned as a temporary measure for a period of three months from 1st July 1919; the Standing Committee recommend as follows:-

1. That the hospital be sanctioned in the same building if available for six months from 1st October at a cost of Rs. 60 per mensem.

2. That for animals recommended by courts under Section 6(4) of the Act, the scale of charges to be recommended to the District Magistrate be:-

1.	Horse	Rs. 1. 4-0	per diem
2.	Pony	" 1- 0-0.	"
3.	Bull, cow or Buffaloe	" 0-10-0	"
4.	Dog	" 0- 6-0	"

(Note:- The above rates to include diet and medicine charges: - attendants to be supplied by the owner wherever possible).

3. That for other animals actual feeding and medicine charge be levied.

The President said that the experiment of the temporary veterinary hospital was to continue for six months more i.e. till the end of the official year. The only additional charge being Rs.60 per mensem on account of rent for the building. The District Magistrate has asked him as President to fix rates for animals sent by courts to the hospital for treatmentas required by section 6(4) of the Act. He said that the rates adopted by the S/C were based on the Bombay rates and local experience of the actual feeding charges. As regards animals of private persons, the President said, that actual charges would be levied. The Commissioners' first resolution had been to administer treatment free.

Mr. Johnson said the question had been raised whether it was in the power of the S. P. C. A. functionaries to impound or send to the ~~Municipal Veterinary Hospital~~ diseased or ailing dogs which has escaped the attention of the Municipal

the attention of the municipal dog catchers.

The President said that it would be necessary for the S.P.C.A to address the District Magistrate on the point but generally -- speaking cases to be sent to the hospital would require the order of a court.

He added that in Bengal a bill was pending according to which when a magistrate was not sitting, it was competent for the S.P.C.A. to - remand animals for treatmentand, the was hopeful that this practice might be legalised in Bangalore.

RESOLUTION:- The recommendation of the Standing Committee accepted a follows:-

1. That the hospital be continued in the same building if available for six months from 1st October 1919 at a rent of Rs. 60 per mensem.

2. That for animals recommended by courts under section 6(4) of the Act, the scale of charges to be recommended to the -- District Magistrate be :-

1.	Horse	Rs. 1- 4-0 per diem
2.	Pony	" 1- 0-0
3.	Bull, cow or buffaloe	" 0-10-0
4.	Dog	" 0- 6-0

(note:- the above rates to include diet and medicine charges: attend to be supplied by the owner wherever possible).

3. That for other animals actual feeding and medicine c charges be levied.

533.- Health Officer's note No.3295 dated 6-3-1920 re the continuance of the temporary Veterinary Hospital; the Standing Committee recommend the continuance of the Veterinary Hospital for another six months.

The President said that he hoped to put up shortly the observations of the Health Officer and the Executive Engineer in respect of Veterinary Hospitals at Madras, Poonaa and Bombay. He gave a summary of work done at the hospital which showed that the number of animals of all descriptions treated from 1st October -- 1919 to 15th March 1920 was 3139 giving a daily average of 12 ani mals. He said that the expenditure for 5 months was Rs.2979 --- against a collection of Rs.511 from treatment &c., for 5½ months.

I desire to bring to the notice of the Hon'ble the Resident in Mysore the subject of a permanent veterinary hospital for the Civil and Military Station.

2. If you will refer to the correspondence ending with your No. 4091, dated the 7th May 1920, you will see that the subject is not altogether a new one and that the need for such a hospital has been felt for years past. The military authorities maintain a hospital for their own purposes on Victoria road, near the approach to the Cornwallis barracks, and to a limited extent the civil population is able to avail itself of the facilities there provided. But there is scope for a purely civil hospital, and I may refer in particular to the permanent need for an "infirmary" to which animals may be remanded under the "Act for the prevention of cruelty to animals". In the year 1912 the Municipal Commission was compelled by force of circumstances to take over the work of an S.P.C.A., the then existing society having fallen on evil days; but, with the revival of interest in the objects of an S.P.C.A., the Commission was able in 1919 to abolish its department for this work and to give certain assistance to the new S.P.C.A. in widening its sphere of activity (please see my No. 7213 dated 19th September 1919 from

the arrangements then come to). The Commission then accepted the view that it would leave the work of prosecution and of educating public opinion to the Bangalore S.P.C.A. while, as its share of work for animals, it would maintain a veterinary hospital.

3. Such a hospital was opened on Hosur road in July '19 on a temporary basis under the sanction conveyed in your No. 6440 dated the 21st August 1919. Your latest communication on the subject is No. 3390 U/O dated 7th April 1921.

4. Mr. Chengeri, Municipal Veterinary Inspector who holds the degree of G.B.V.C. (graduate of the Bombay veterinary college) has been in charge of this hospital in addition to his primary duties of inspecting animals at the slaughter house and of dealing with any epidemic among animals. The enclosed statement (En. 1) gives figures of the work done at the temporary hospital during 1920-21 and I may say that the Commission is of one mind that the hospital must be continued.

5. In February 1920 both the Health Officer and Engineer went on a tour to Madras and the north of India, charged with the particular duty of enquiring into the subject of municipal veterinary hospitals. Both officers gained valuable knowledge and, with its experience of the temporary hospital, the Commission feels that it is now in a position to proceed to construct a permanent hospital or hospitals.

6. Much investigation on the subject of a site has been done and the opinion of the S.P.C.A. has been obtained. I may merely say that the main difficulty is to reconcile the advantages of a central position, accessible for S.P.C.A. work, with the need for an open site not too close to human dwellings. A central position must necessarily be remote from outlying parts of the station, and the Standing Committee is at present of opinion that two hospitals, one in the north and one in the south, will eventually be necessary. The Commission is about to come to a decision but, before it does so, it is necessary that it should know where it stands financially. The main object of my letter is to solicit the favour of a statement by the Hon'ble

the Resident as to the extent to which he is prepared to assist the Commission by (1) capital (2) recurring grants.

7. When at Ootacamund in 1918, I procured the following orders (enclosures II) of the Government of Madras:-

G.O. No. 956 Revenue, dated 1st April 1913.

G.O. No. 3589 Rev., dated 6th December 1913

G.O. No. 722.Rev., dated 7th March 1914

G.O. No. 749.Rev. dated 12th March 1917.

From these you will observe that the practice in the Madras Presidency is for the Government to meet the whole of the first cost and half the recurring cost of veterinary dispensaries and hospitals.

The "Financial Relations Committee" appointed by the Government of Madras in G.O. No. 1193.M. dated the 30th August 1920 to examine the finances of local bodies and their relation to provincial finance, reports as follows under the head of "Veterinary":-

156. "Veterinary relief is a new burdem for local bodies, dating only from 1903. It is mainly a branch of agriculture, but we do not accept the suggestion that local bodies should be relieved entirely of responsibility for veterinary work".

"157. Neither the finance nor the administration of veterinary institutions is governed by settled principles. It was hoped at the outset that local bodies would bear the whole cost. As only a few bodies responded to the invitation, the Government offered to bear the whole initial cost of building and equipment and half the recurringcharges. The result of this change of policy is anomalous. Local bodies that answered the 1st call get no relief, and only those who held back at the start get the benefit of Government subsidies".

"158. Thus some institutions are financed and administered wholly by the Government, some wholly by local bodies, while some local bodies contribute to institutions managed wholly by the Government, and the Government contribute to institutions

managed wholly by local bodies. Even the half and half principle is not uniformly applied, some local bodies contribute more than half and some less. The joint interest of boards and municipalities engenders further complexities."

"159. We do not consider such haphazard arrangements sound. We have no objection to the Government establishing and maintaining at their own cost a few model institutions in selected localities on the analogy of headquarter hospitals, but if local bodies are to co-operate, they should do so on a definite basis. The resources of local bodies are not, however, able to advance this branch of administration very far, and we do not think much progress can be made under the existing formula. The majority of us recommend that in future the Government should bear ¾ths of the ordinary charges, and that local bodies should exercise administrative control over all institutions to which they contribute. The cost of constructing and improving buildings should be, as now, a provincial charge".

"160. x x x x x

"161. Municipal Councils are entrusted with large powers under the law for regulating the stabling of animals, and we consider that they should accept full responsibility for the registration of cattle mortality, and for such measures as may be necessary to prevent or eradicate disease. The cost of such measures should be trifling and most of it should be recoverable from owners. Provincial subsidies for this are not needed."

"162. As regards hydrophobia, we consider that the systematic destruction of stray dogs and the provision of lethal chambers are duties which municipal councils must not neglect, and that they should undertake an active propanganda regarding the dangers of rabies, and provide every facility for sending those who are bitten for treatment to the Pasteur Institute, Coonoor. The existing arrangements for financing these measures may continue In this work veterinary officers should be freely associated, and it would be well if they were required to investigate and report on all rabid outbreaks".

"163. The total cost of veterinary institutions maintained by local bodies in 1919-1920 was some Rs90,000 of which Rs45,000 was borne by local boards, a little under Rs10,000 by municipalities, and a little over 35,000 by Government. Our proposals would entail an extra cost of about Rs32,000. Possibly there would be some saving in this by the transfer to local bodies of institutions financed now solely by the state. We believe that the adoption of the formula proposed will lead to a more rapid expansion of veterinary relief than has hitherto been possible.

8. The Station is, of course, situated somewhat differently from a mufassal district headquarters, to which ryots with their bulls come from all quarters of the district; and it cannot be said here that the problem is "mainly a branch of agriculture". Carriage horses and dogs bulk largely among the inmates of our temporary hospital, but a large number of carts come in from surrounding villages to the market and this aspect of the work will not be neglected. Enc. III gives the not inconsiderable totals of the recent "cattle" census in the Station.

9. Enclosure IV gives the financial results of 1920-21 and of the first 3 months of this financial year. Enclosure V gives the scale of charges at present levied. In some ~~towns~~ towns veterinary treatment is free. It is under contemplation to place a special tax on race horses brought to Bangalore for the season and to credit the tax to the veterinary hospital. What direction development of the hospital should take in future years need not now be examined, but it has been suggested that eventually an experienced veterinarian might be secured and, in lieu of a high salary, be allowed private practice. If any recurring grant is to be given, it follows as a matter of course that Residency sanction would be required to any change in establishment, for the present it is sufficient to enquire whether a proportionate annual grant of the actual running expenses of the hospital, as estimated for the next 3 years (1922-25) can be given. (Enclosure VI)

10. As regards the first cost of permanent hospital buildings after careful investigation I am not able to put the price of a site much below Rs25000. There is no satisfactory open site

in a convenient place and it would be a serious mistake to economise over a site only to obtain one in an obscure place where access was difficult and the takings and usefulness of the hospital would be affected. After the site had been cleared, it would be necessary to plan the whole hospital and then build gradually. It is estimated that for Rs20,000 sufficient accommodation could be provided for some time to come, at the main hospital. The Commission already has Rs896 worth of instruments and other equipment, and Rs700 which was given by private persons in 1911, towards the construction of a hospital. A sum of Rs15,000 has been provided in this years budget for a hospital, and, if a promise of at least half the cost of a site up to Rs 25,000 could be given (either by reappropriation or from next years budget) the Commission would at once proceed to acquire the site. Having obtained the site, the Commission would then submit detailed building plans and estimates to suit the site, and it is for the Residents consideration whether a full grant for this purpose might not be made, to be spent in the years 1922-23 and 1923-24.

11. The question of the subsidiary hospital need not be taken up at present.

To

The Political Secretary to the Government of Indi

Foreign and Political Department.

SUBJECT.- Construction and maintenance of a permanent veterin hospital for the Civil and Military Station of Ban lore.

Dated Bangalore, 8th oct 12th 1921

SIR,

I have the honour to address you on the above subject.

2. The Municipality of the Civil and Military Station of Ba lore opened a veterinary hospital temporarily in July 1919 a a result of the working of that institution they are convinc that there is ample scope for a purely civil veterinary hosp in the Station and have now recommended the construction of a hospital. The Commission's proposals and the grounds on they are based are set forth in sufficient detail in the let from the President, No. 1072, dated the 8/10th September 1921, its enclosures, of which copies are enclosed for the conside tion of the Government of India. I trust that the Governme of India will accept the Commission's view, with which I con that such a hospital would serve a useful public purpose and they may be pleased to agree to the proposals set forth belo

2 | Return of enclosure II is requested.

3. It will be seen that, in the Madras Presidency, the Gove ment of Madras in the case of veterinary dispensaries and hos pitals maintained by local bodies bear the whole initial cost build

building and equipment and half the recurring charges. The cost of securing a suitable site for the proposed hospital here is estimated at Rs.25,000/-. The Municipal Commission, it will be seen, propose to set aside Rs.15,000/- for the purpose and ask that the Government of India will assist them with a grant of Rs.12,500. On the analogy of the practice in Madras the request seems to me to be a reasonable one and I commend it to the favourable consideration of the Government of India. On the same grounds I support the Commission's request that the Government of India may be pleased to sanction a non-recurring grant of Rs.20,000/- to cover the cost of building the hospital and equipping it and supplementing the instruments which the Commission at present possess, and also a recurring grant of Rs.2260/- per annum which is half the estimated net cost of maintaining the hospital - See enclosure VI to the letter from the President, Municipal Commission. The establishment proposed for the hospital is on a modest scale.

4. In all the circumstances I trust that the Government of India may be pleased to consider the foregoing proposals favourably and to provide a sum of Rs.34,760 for the purpose in the budget of the Assigned Tract for 1922-23.

For Site
" building
" half the net recurring charges

I have the honour to be,

SIR,

In continuation of my letter No. 1072, dated the 10th September 1921, regarding the question of a permanent veterinary hospital for the Civil and Military Station, Bangalore, I have the honour to forward herewith for the information of the Hon'ble the Resident, a copy of the Commission's resolution No. 367, dated the 29th September 1921, on the subject.

I have the honour to be

Sir

Your most obedient servant,

FOR PRESIDENT,
MUNICIPAL COMMISSION,
CIVIL AND MILITARY STATION,
BANGALORE.

I.S.

8=11=21

H. O.
——500—3—3—1921.

Abstract of proceedings of an ordinary ~~or special~~ meeting of the Municipal Commission for the Civil and Military Station of Bangalore held at the Mayo Hall at 8-15 a. m. on Thursday the 29th September 1921.

---

367. Site for Veterinary Hospital.

Draft may issue. Referred to Commmission for information.

The President said that this concerned construction of the permanent veterinary hospital which the Commission had been contemplating for some time past. He had received intimation on the Collector's side that under the new financial arrangements the assigned tract budget estimates should be submitted to the Residency earlier than hitherto and so he had been compelled to address the Residency in anticipation of the Commission's views. He then referred to this office letter No. 1072, dated the 10th September 21 to the Secretary to the Hon'ble the Resident in Mysore on the subject and explained that his recommendation therein had been based to some extent on the principles laid down by the Financial relations Committee of the Government of Madras in regard to the veterinary hospitals. The principles recommended there were that the government should bear ¾ths of the recurring charges of the hospita together with the whole of its capital cost. The station was situated somewhat differently from a Muffasal district headquarters, to which ryots with their bulls come from all quarters of the district, and it could not be said here that the problem was "mainly a branch of agriculture". Carriage horses and dogs bulked largely among the inmates of the temporary hospital but a large number of carts were coming in from surrounding villages to the market and this aspect of the work would not be neglected. He had enquired of the Residency whether a proportionate annual grant of the actual running expenses of hospitals as estimated for the next 3 years (1922=25) would be met by the Government.

As regards the first cost of permanent hospital buildings he was not able to put the price of a convenient site much below Rs. 25000/ A sum of Rs. 15000/= had been provided for in this year's budget for a hospital. He had told the Residency that if they could hold out a promise of at least half the cost of a site upto Rs. 25000/= (either by reappropriation from the next years budget or a grant) the Commission would at once proceed to acquire the required site. Having obtained the site the Commission could then submit detailed building plans and estimates to suit the site. It was for the Resident's consideration whether a full grant for this purpose might not be made to be spent in the years 1922=23 and 1923=24.

Mr. Haudin enquired whether it would not be convenient to have 2 hospitals, one for the northern and one for the southern division

The President replied in the affirmative.

Mr. Abdul Latheef suggested that the Government might be approached to pay the whole of the initial cost.

The Vice President said that in the Muffasal in the Madras Presidency Veterinary Hospitals were maintained entirely by the Government and no charges were levied for treatment of animals. Since the Commission was levying fees for treatment, they could not

in fairness ask the Government to bear the whole of the recurring charges. The Government might be requested to bear the whole of the capital cost.

Mr. Annaswamy Mudaliar said that the vacant land situated on Robertson Road near the cattle sheds would be a suitable site for a veterinary hospital on the northern side to which animals from the neighbouring villages may be conveniently brought for treatment.

Mr. Hall wanted to know why magistrates did not send animals brought up before them under the Act for prevention of cruelty to Animals for treatment in the veterinary hospital.

The President replied that he would look into the matter.

The 2nd Magistrate said that in most cases the owners did not like to take their animals to the hospital.

The Vice President emphasised that the Government should be requested to pay the whole of the capital cost.

The President in winding up the discussion said that he would se on the views of the Commission to the Hon'ble the Resident.

Resolution:- Passed.
